

Top reasons why ChequePRO is a winning Solution for SMEs & MNCs

CHEQUEPRO (Cheque printing & payment Management Solution) program helps you to print on any Singapore as well as International bank cheque, and provides a total payment management solution.

CHEQUEPRO can be your first step towards improving your business payment process, Let us tell you how.

If you or your employees still rely on paper lists, word documents, multiple excel spreadsheets and undocumented processes in your everyday's cheque & payment issuing process...

Look no further! **CHEQUEPRO** can do all this and more with just click of a mouse. ChequePRO is an automatic software for printing cheques which can automate the whole process of storing customer details, cheque details, print payment vouchers, salary voucher and generate up to date reports with a ease of one click"

CHEQUE PRINTING

ChequePRO prints on any Singapore or International bank cheque directly to any printer. Specially designed for using the new CTS cheques applying in Singapore. Write cheques in just the way the banks want them.

Date, Cheque Number, and Bank Account Number are automatically derived from the system, which are editable. All cheque and customer data is stored into database, for reconciliation and management reporting.

It is convenient to use, You just need to key the amount of the cheque in figures (translation from figures to words is automatic).It saves time and records all cheques and deposits details into a centrally stored secured database.

ChequePRO is designed to be a typo error proof and tamper proof software.You can use the program for unlimited number of Bank cheques. (DBS, UOB, OCBC, HSBC, CITIBANK, MAYBANK, STANDARD CHARTERED, POSB, UFJ etc.)

ELECTRONIC PAYMENT VOUCHER

The payment voucher feature helps you to print payment vouchers directly to a printer on an ordinary A4 size paper. This software stores your clients and payments information to a secure database
